Detective Gallo,

Thank you for arranging our meeting today to learn about Ring's approach to reducing crime in communities.

An overview of our program:

Our platform combines the deterrent value of a visible security system (devices) with the power of an actively engaged community (via a free app) to reduce criminal activity and to help solve open investigations.

Neighbors Portal is Law Enforcement's access to our platform. Portal highlights include:

1. **No Cost** - Neighbors Portal is free to Law Enforcement.
2. **Community Engagement** - Law Enforcement's ability to join the conversation on the Neighbors app (about posted video or in response to posted comments).
3. **Alerts** - You may post alerts which are highly relevant (proximity) to the recipient.
4. **Video Request** - You may request videos from Ring device owners who may have captured footage, that may be of relevance to active investigations.

As the attached MOU is reviewed, please feel free to contact me at any time. My cell number is 832-992-9910. As part of our security protocol, I have mailed a postcard to you with a code. Once you receive it, please enter the code at the end of the MOU document, along with the signature, prior to sharing it with me via email.

In the case where the MOU may need to go before City Council, we want to be sure to provide the proper support in advance. Please let me know if this is the case and I will loop in our PR/Media team for support.

Could you please help me identify the personnel in the highlighted roles? Once we receive the signed copy of the MOU and the information below, we will be ready to move forward in the process.

Chief,

Sounds like it's worth pursuing. I have some questions:

-- cost? "Neighbors portal is free to law enforcement...." but any other expenses? Any significant time commitments that become an expense?

-- community engagement. A positive. But one more channel to monitor for chitchat (time commitment?). Alhert advises TC against official engagement in Facebook conversations. Same OPRA and discoverability issues may apply for this.

-- Alerts. Again a positive. But if we send an alert that only goes to people who have bought this commercial product, do we become liable if a neighbor who doesn't have Ring becomes a victim because he didn't get the alert? Solvable by also sending an ACTNow Alert?

-- video requests. Huge investigative resource to have access to 700 surveillance cameras. May cause pushback from some members of the public, similar to San Francisco outlawing facial recognition technology? I admit I'm surprised. (I've seen the Ring ad on TV many times, but they never mention that their videos are captured and stored. They may be sensitive to this as a potential privacy issue.)

Thanks, Tom, for keeping an eye on new opportunities. I'd like a better understanding of the advantages vs potential problems, and the practices that would help. Also, who else is using this? What's been their experience? Any legal guidance or court challenge?
